EDUCATION

University of North Texas | *Master of Science, Health Informatics* (GPA: 3.86/4)

May 2026

University of Indian Academy | *Master of Science, Microbiology* (GPA: 3.39/4)

Sep 2020

PROFESSIONAL EXPERIENCE

Sutherland (Client: Aetna) | *Data Analyst*

Mar 2026 - Present

- Managed and updated provider data records across payer systems (QNXT, CAHQ, ProData), ensuring accuracy aligned with Medicaid and provider enrollment requirements.
- Performed data validation and quality checks using quality systems to maintain dataset integrity and ensure compliance with regulatory requirements across operational workflows.
- Utilized Power BI dashboards to track provider data trends, identify discrepancies, and support data-driven decisions.
- Supported provider data lifecycle processes, including verification, updates, and issue resolution with cross-functional teams.
- Coordinated data reporting and tracking, improving visibility into data accuracy and operational performance.

Manipal Hospital | *Healthcare Analyst Intern*

May 2025 - Aug 2025

- Managed patient documentation datasets (EPIC/NextGen-like systems) using SQL and advanced Excel, achieving ~95% data completeness and accuracy aligned with hospital standards.
- Prepared analytical reports and coordinated cross-functional workflows, supporting audit readiness and timely completion of ~90% of action items.
- Developed Power BI dashboards to track documentation trends and compliance metrics, improving visibility and enabling faster issue identification by ~30%.
- Performed data analysis and quality checks in laboratory information management systems to support PROM implementation and audit reporting, reducing data discrepancies by ~20%.

Merck – Healthcare & Life Sciences | *Compliance & Healthcare Analyst (Intern → Analyst)*

Nov 2020 - Jun 2024

- Maintained compliance datasets and documentation systems using SAP, GTS, ERP, Excel, and SQL, improving data accuracy and audit traceability by ~25%.
- Performed data quality checks and compliance reviews on clinical and operational documentation, contributing to a ~20% reduction in documentation gaps.
- Developed and standardized reports, surveys, and datasets for healthcare initiatives (oncology, infertility), reducing rework and revision cycles by ~30%.
- Built a Python-based automation tool and collaborated cross-functionally to support compliance reporting, reducing turnaround time by ~80% and ensuring ~95% on-time.

PROJECTS & PUBLICATIONS

Hospital LOS Dashboard

2025

- Built a Power BI dashboard using SQL to analyze patient length of stay, optimizing room utilization and improving billing efficiency

ER Documentation Compliance Audit

2025

- Developed a Power BI dashboard integrating clinical documentation audit data to track accuracy rates and measure training effectiveness against FDA/ICH guidelines

Discharge Summary Quality Dashboard

2025

- Designed a Power BI solution to monitor data completeness and quality in discharge records.

SKILLS

- Compliance & Quality Assurance:** Quality Assurance & Compliance, Clinical Documentation & Auditing, FDA/ICH Guidelines, Data Privacy Compliance, Compliance Investigations, Monitoring, Quality Systems, Regulatory Requirements
- Data Analysis & Reporting:** Data Analytics, Data Visualization, Power BI, Tableau
- Software & Tools:** SQL, Python, Advance Excel, SAP, GTS, ERP, Microsoft 365, EPIC, QNXT, CAQH, Pro Data, Laboratory Information Management Systems
- Healthcare & Documentation:** Medical Coding & Terminologies, Provider Data Management, Clinical Documentation
- Laboratory Techniques:** Aseptic Laboratory Techniques, Cell Culture, Bioassay, ELISA

CERTIFICATIONS

- ICH-GCP Guidelines
- Advance Excel
- Healthcare Compliance (CHC)
- Data Analytics
- Clinical Data Management

AWARDS AND RECOGNITIONS

- 2025 Mayo Drake SCC/MLA Award Recipient

EXTRACURRICULAR

MERCK | *CSR Leadership – STEM Education Initiative*

Jan 2022 - May 2024

- Led a CSR project with Prayoga Institute at MERCK, equipping government schools with lab stations, developing course materials, and facilitating hands-on STEM education for underprivileged student.
