

February 9, 2026

To whom it may concern,

I am pleased to offer my strong recommendation for **Niveditha Shivashankar**, a graduate student in Information Science with a concentration in Health Informatics at the University of North Texas. I have worked closely with Niveditha in both academic and research settings, and I can confidently speak to her intellectual capability, professionalism, and readiness for development within an organization.

From the outset of her graduate studies, Niveditha has demonstrated a clear and sustained commitment to building a career in health informatics. She has been an engaged and highly motivated student in my face-to-face courses, consistently taking on active roles in class discussions and presentations. Her contributions reflect not only strong preparation but also an ability to synthesize complex concepts and communicate them effectively—an essential skill in healthcare and information leadership contexts.

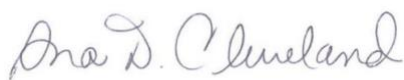

Niveditha's academic excellence and professional promise were further recognized when she was selected as a **Mayo Drake Award recipient** at the **SCC/MLA 2025 Conference**. I attended the conference with her as well, which allowed me to observe her professionalism, curiosity, and engagement in a national professional setting. She represented herself and our institution with maturity and confidence, engaging thoughtfully with practitioners and scholars across healthcare and information science disciplines.

In addition to her coursework, Niveditha is currently collaborating with me on research focused on Electronic Health Records (EHRs). In this work, she contributes to the analysis of clinical documentation patterns and the use of structured and unstructured data to support clinical care and operational decision-making.

Niveditha brings together a combination of technical aptitude, healthcare domain understanding, and a collaborative, leadership-oriented mindset. She is dependable, intellectually curious, and proactive in seeking opportunities to grow. Based on my experience working with her, I am confident that she will excel in a structured leadership development environment.

I recommend Niveditha Shivashankar **without reservation** for the **analytical, administrative or strategic roles in an organization**. The opportunity will provide an excellent environment for Niveditha to further develop her skills, systems perspective, and ability to translate data into informed operational decisions.

Please feel free to contact me should additional information be required.

Ana D. Cleveland, PhD, AHIP, FMLA
Sarah Law Kennerly Endowed Professor
Regents Professor and Director, Health Informatics Program

Date: 30th August 2025

TO WHOMSOEVER IT MAY CONCERN

This is to certify that **Ms. Niveditha Shivashankar** has successfully completed her internship at **Manipal Hospitals, Hebbal Bangalore** in the **Medical Service Department** for a period of **three months**, from **08/05/2025** to **08/08/2025**.

During her internship, Ms. Niveditha demonstrated a high level of diligence, analytical ability, and collaboration in a range of audit and quality improvement initiatives. Her contributions includes:

Emergency Department Documentation and Audits:

- Contributed to the Emergency Room (ER), Length of Stay (LOS) Audit Report by analysing patient timelines and identifying workflow efficiencies.
- Participated in ER Observation & Assessment Audits (Cycle 1 & 2), and developed a comprehensive dashboard to visualize audit findings and performance metrics.
- Assisted in ensuring clinical compliance through the completion and review of triage documentation.
- Supported training initiatives for ER staff, contributing to the standardization of documentation and audit practices.

Patient-Reported Outcome Measures (PROM) Engagement:

- Conducted PROM audits across departments to assess the hospital's impact on patient outcomes and experiences.
- Facilitated the setup and follow-up of PROMs implementation across various specialties.

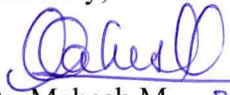

Institution-Wide Clinical Audits and Data Projects:

- Coordinated with clinical departments to identify and define relevant audit topics.
- Executed a Clinical Data Turnaround Time (TAT) Audit, evaluating critical reporting timelines.
- Contributed to a Discharge Summary Audit by assessing documentation quality and timeliness.
- Performed data cleaning and developed a longitudinal dashboard for the ENT department to track patient outcomes over time.

Throughout her internship, Ms. Niveditha showcased initiative, attention to detail, and a commitment to quality improvement. Her contributions have been of great value to the department, and she has shown great potential for a future career in healthcare quality and data analysis.

We wish her all the best in her future endeavours.

Sincerely,

Dr. Mahesh M 30/08/25
